## UNINTERRUPTED LEARNING

When the Covid-19 pandemic outbreak forced schools and colleges to shut down in March 2020, the teaching staff and the management of Kingston Educational Institute turned the seemingly difficult challenges into opportunities by using their expertise in integrating technology in the teaching-learning process. They used a wide array of digital tools such as Microsoft Teams to introduce an innovative online learning solution for all classes.

## TRAINING AND PLACEMENT

Students are groomed through various technical & non-technical training, group discussions, workshops, seminars, hard skills & soft skills and personality development programmes to make them market ready. In this process, strength & weakness of each and every student is brought into limelight so that they are rectified in due course. The Training & Placement Department of KEI has tie-ups with several organizations and companies for trainings & placements.
